

ww-HV-1500 LKW

Heavy Vehicle Engine & Transmission Repair Stand

ISO9001 : 2008 | Made in Eichstätt / Germany

Single-person operation
Movable & 360° rotatable
Safe operation at any position
Working height adjustable
Transportable with lift truck
Removable oil pan

Developed for repairing heavy vehicle engines and transmissions up to 1.5 ton (especially truck and marine). With appropriate adapters it can be used in all heavy vehicle services. 360 degree rotatable even installed with engine. Static balance can not be corrupted easily. Compact design for space-saving storage. Self-locking worm gear and Locking wheels allow safe operation in any position. Load lifter height can be adjusted by pump (250 mm). Ready to use with removable oil pan and tool storage tray.
